Over the years, Hospice of Washington County developed into a full service hospice with doctors, registered nurses, certified nursing assistants, professional social workers and spiritual care providers in addition to our many dedicated volunteers.

As the exclusive licensed provider of hospice care in Washington County, Maryland, our goal is to surround the patient and their family with a personal team of professionals who know how to manage even the most difficult situations. HWC serves Washington County residents who live at home with family, in nursing homes, assisted living facilities or group homes and now at Doey's House, the first hospice house for our community.

YOUR SPECIAL INVITATION

We invite you to join the Hospice of Washington County's Evergreen Society. This special society was created to recognize the many loyal friends who have established a personal legacy in support of HWC's comprehensive end-of-life and grief counseling services. The compassionate individuals united by this honorary distinction share a profound commitment to HWC and to serving our community when coping with aging, serious illness and grief.

Hospice of Washington County, Inc. was established in 1980 for the sole purpose of lending support to those facing a terminal illness and to their families. A core group of caring citizens of Washington County, Maryland gathered to see how they could offer their time and talents to help share the burden

of a serious illness for their neighbors. Over the past three decades, Hospice of Washington County developed into a full service hospice with doctors, registered nurses, certified nursing assistants, professional social workers and spiritual care providers in addition to our many dedicated volunteers.

Thanks to so many generous individuals and businesses, HWC consistently goes above and beyond to offer much-needed services that are not reimbursed by Medicare and other payers. HWC does not turn away a patient from care due to their inability to pay.

By leaving a HWC legacy, you help ensure that our supportive services will be there for all who need our care in the future.
